Singapore	19	3%
Canada	19	3%
Brazil	12	2%
Hong Kong	8	1%

How this is measured. First-party, cookieless measurement on cyprusvalley.ventures, with automated/bot traffic excluded. Traffic is also mirrored independently by Cloudflare Web Analytics (edge-measured). Measurement started on 23 Oct 2026, so this covers the first 6 days; figures grow as the window lengthens. Sources are 99% direct (links shared in chats, email and social), which is typical for a newly promoted site.
