

Technical Specification (Development) for CyprusValley Accelerator Project

Context

The discussion revolves around the provision of draft agreement samples, specifically referencing an agreement between Catia and Elena. These drafts are intended to be used and adjusted by the project team according to the project's needs and scope of work. Additionally, a link to a service offering related to "Marketing Influencer Matching" was shared by Nik Chepenko.

Tasks

1. **Provide draft versions of agreements** as per the agreement between Catia and Elena.
 - Purpose: To be used as samples for further adjustments by the project team.
 - Requested by: Catia.
2. **Review and adjust the provided draft agreements** to align with the project's specific needs and scope of work.
 - Requested by: Project team (implied from Catia's message).
3. **Analyze the service offering** at the provided link:
`https://x.smartdev.com/smd-x/service-offerings/marketing-influencer-matching`
 - Purpose: To assess its relevance and potential integration into the project.
 - Requested by: Nik Chepenko.

Priorities

- The provision of draft agreements by Catia is noted as pending due to her being "too busy during the working day."
- The task to review and adjust the agreements is implied to be a follow-up action.
- The service offering analysis is a separate task with no explicit urgency mentioned.

Open Questions

- What is the exact scope of work for adjusting the draft agreements?
- What specific requirements or criteria should be used when adjusting the agreements?
- What is the expected timeline for providing the remaining samples of agreements from Catia?
- How should the service offering be integrated into the project? Is there a specific use case or goal?
